All characters are measured from the lowest possible point to the highest. In Mini Books, each 3D object will be the selected size when assembled. All other images are the same height. If **Real Dial Size** is selected, all characters will be cut according to the size specified.

Tous les caractères sont mesurés à partir du point le plus bas possible jusqu'au point le plus haut. Dans la cartouche Mini Books (Mini-Livres), chaque objet 3D sera de la taille choisie lors de l'assemblage. Toutes les autres images seront de la même hauteur. Si vous avez sélectionné le **Real Dial Size** (Disque de Définition de la Taille Réelle), tous les caractères seront coupés en accord avec la taille spécifiée.

Todos los caracteres se miden desde el punto más bajo posible al punto más alto. En el cartucho Mini Books (Mini-Libros), cada objeto en 3D será del tamaño seleccionado una vez ensamblado. Todas las demás imágenes serán de la misma altura. Si se selecciona el **Real Dial Size** (Disco de Definición de Tamaño Real), todos los caracteres se cortarán de acuerdo con el tamaño especificado.
