## What is Real Dial Size? • Qu'est-ce qui le Real Dial Size fait?

(Disque de Définition de la Taille Réelle)

All characters are measured from the lowest possible point to the highest. In Smiley Cards, the base characters are all the same height, and the Layer features are designed to fit them proportionately. If Real Dial Size is selected, all characters will be cut according to the size specified.

Tous les caractères sont mesurés à partir du point le plus bas possible jusqu'au point le plus haut. Dans la carte Smiley Cards (Cartes Smiley), les caractères de base sont tous de la même hauteur et ceux des fonctions Layer (Couche) ont été conçus pour s'y ajuster proportionnellement. Si vous avez sélectionné le Real Dial Size (Disque de Définition de la Taille Réelle), tous les caractères seront coupés en accord avec la taille spécifiée.

## ¿Qué hace el Real Dial Size? • Was ist Real Dial Size?

(Disco de Definición de Tamaño Real)

(Realgrößenwähler)

Real Dial Size OFF  
(Desactivado/Aus)

Real Dial Size ON  
(Activado/Ein)

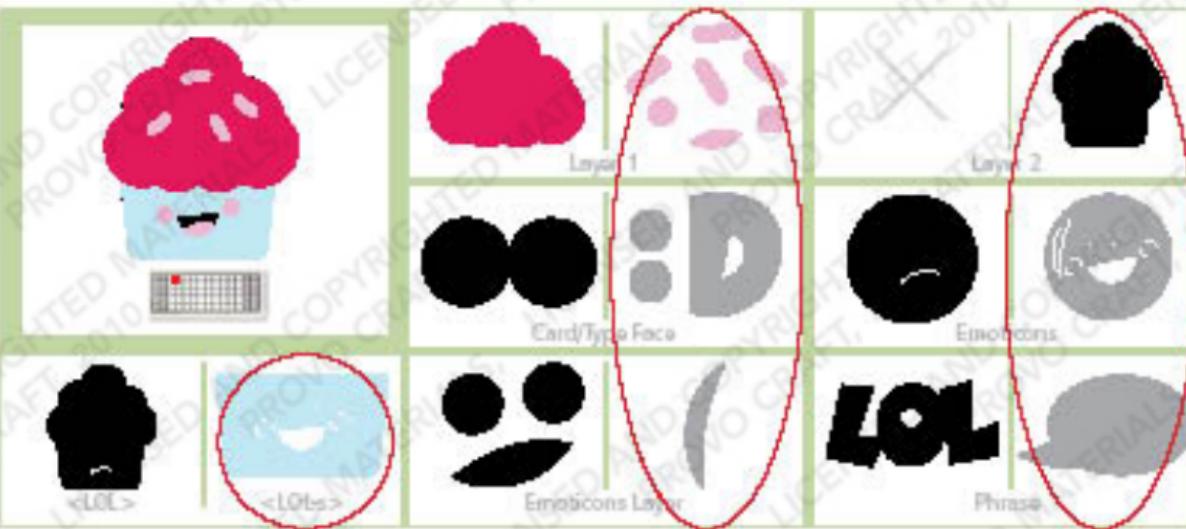

Todos los caracteres se miden desde el punto más bajo posible al punto más alto. En el cartucho Smiley Cards (Tarjetas de Emoticones), los caracteres base son todos de la misma altura, y los de las funciones Layer (Capa) se han diseñado para ajustarse a ellos proporcionalmente. Si se selecciona el Real Dial Size (Disco de Definición de Tamaño Real), todos los caracteres se cortarán de acuerdo con el tamaño especificado.

Alle Zeichen werden vom untersten möglichen Punkt bis zum höchsten möglichen Punkt gemessen. In Smiley Cards (Smiley-Karten) sind die Grundzeichen alle gleich hoch und die Funktion Layer (Schicht) wurde proportional zu ihnen geschaffen. Wenn Real Dial Size (Realgrößenwähler) gedrückt ist, werden alle Zeichen entsprechend der angegebenen Größe ausgestanzt.

In the Icon Gallery you will find a diagram for every image on your cartridge. The circled images are created using the Shift key. You can see at a glance what Creative Features are available for the image you have selected in the Icon Gallery. Some shapes are very intricate and will cut best at larger sizes.
