

3. Ready-to-Make™ Projects

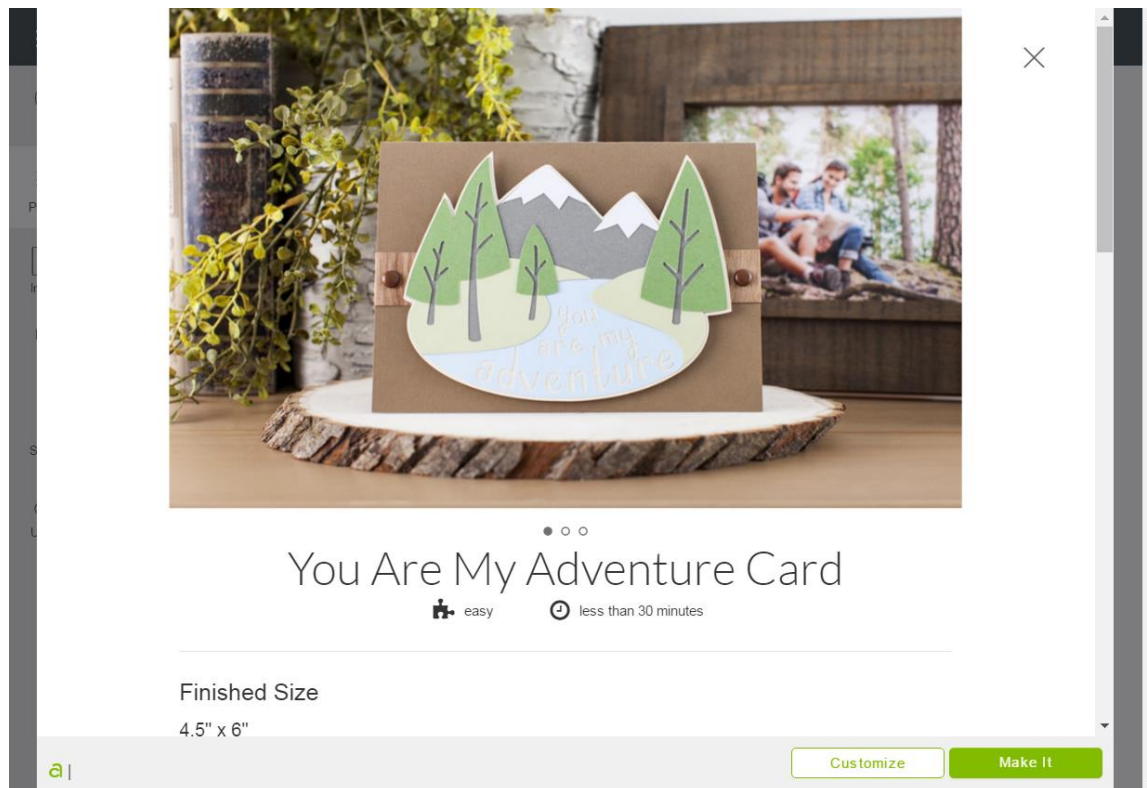

B. Creating a Ready-to-Make Project

Create a Ready-to-Make project without any changes.

Step 1 Find a Ready-to-Make project that you like, either through the Home Screen or on the Projects Tab from the Canvas. Select a project by clicking on the project photo.

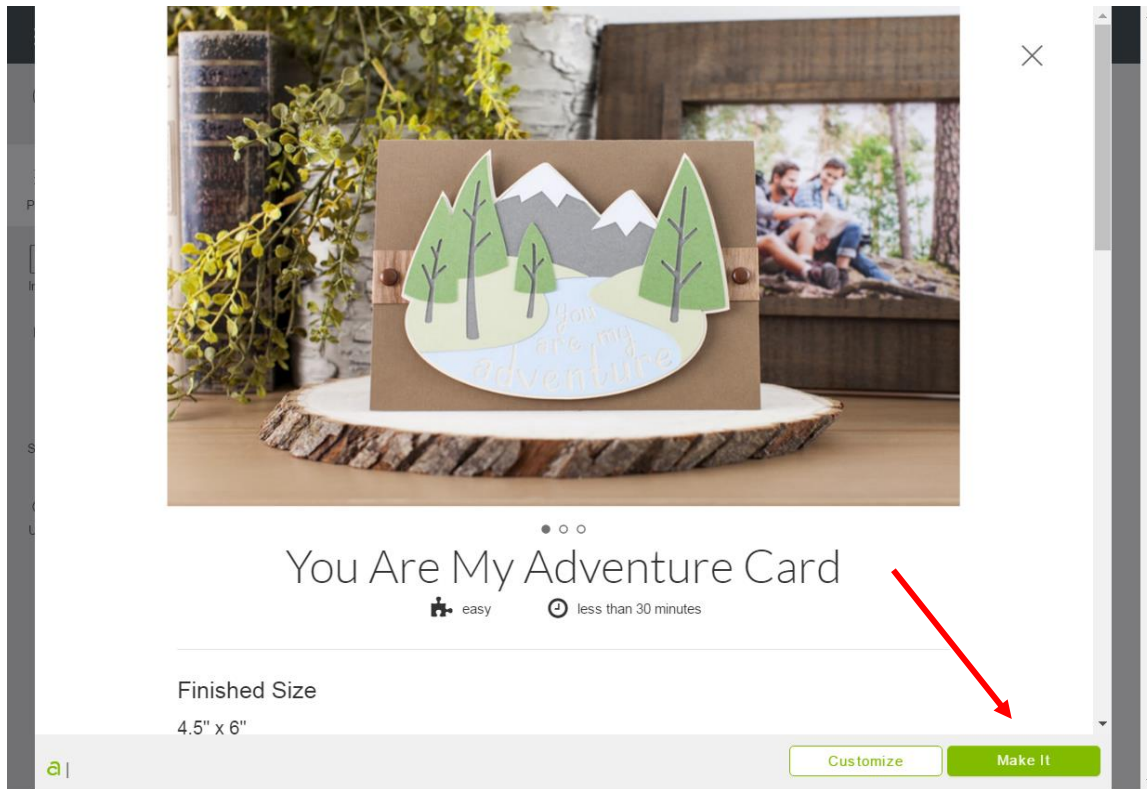

Step 2 A window will open with all the project details, including: project name, project description, difficulty level, estimated completion time, materials, instructions, and image costs.

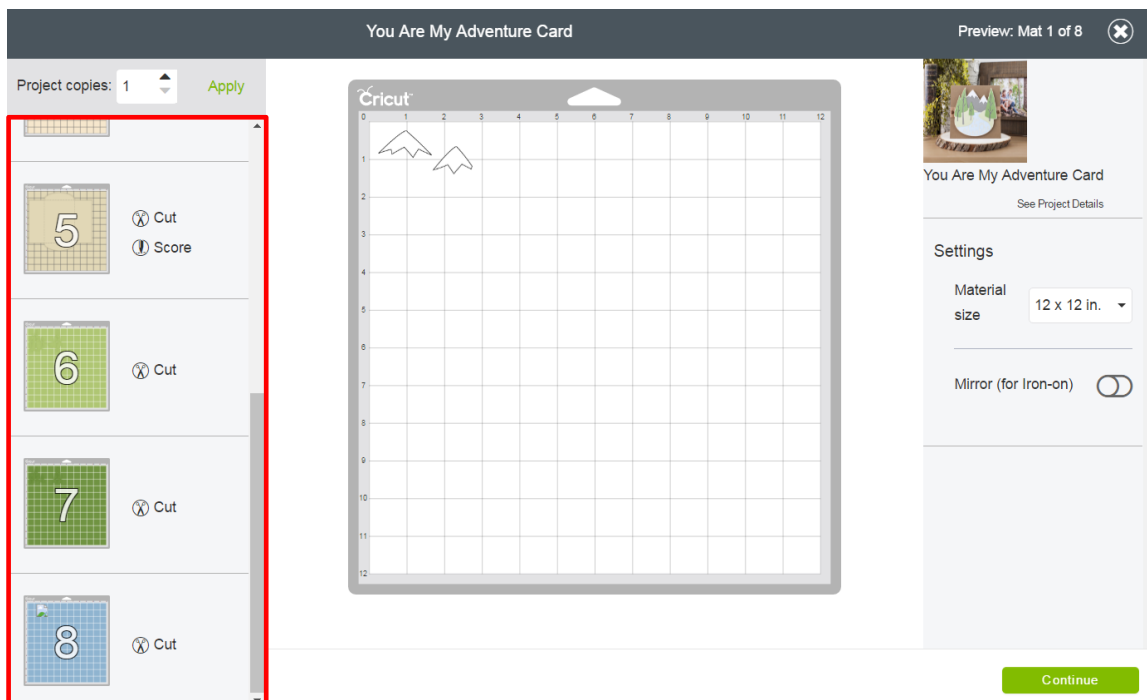

Step 3 Click *Make It* to create the project without design changes.

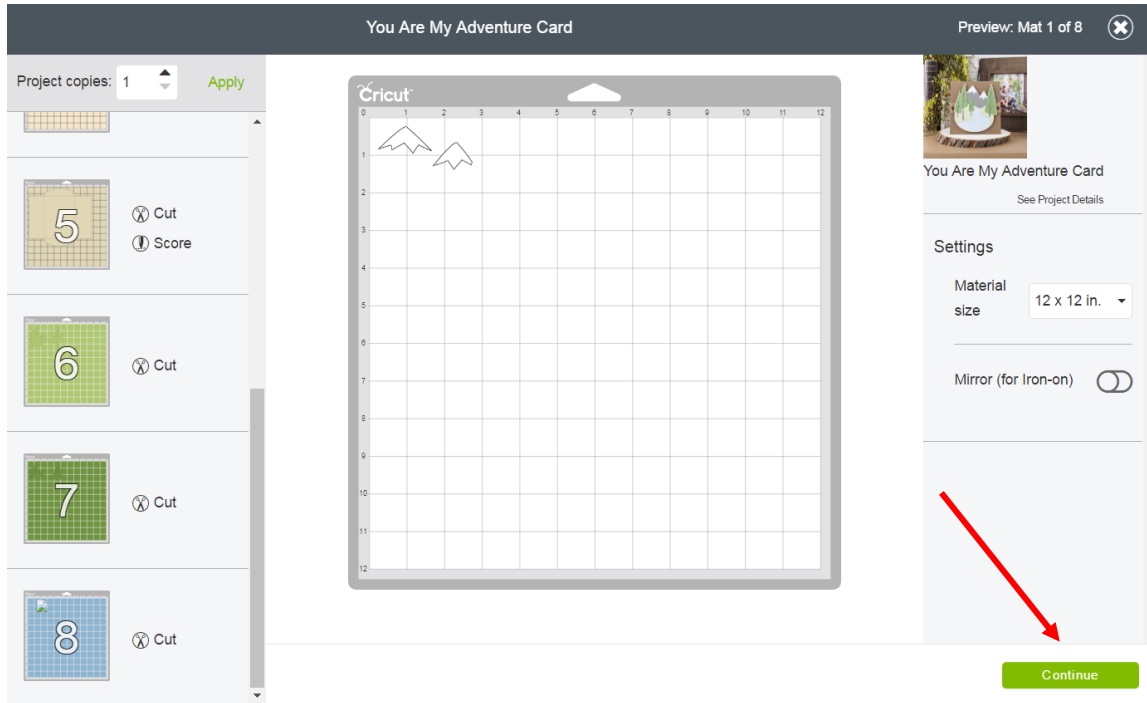

Tip *If you wish to make any changes to the project design, click Customize to open the project on the Canvas.*

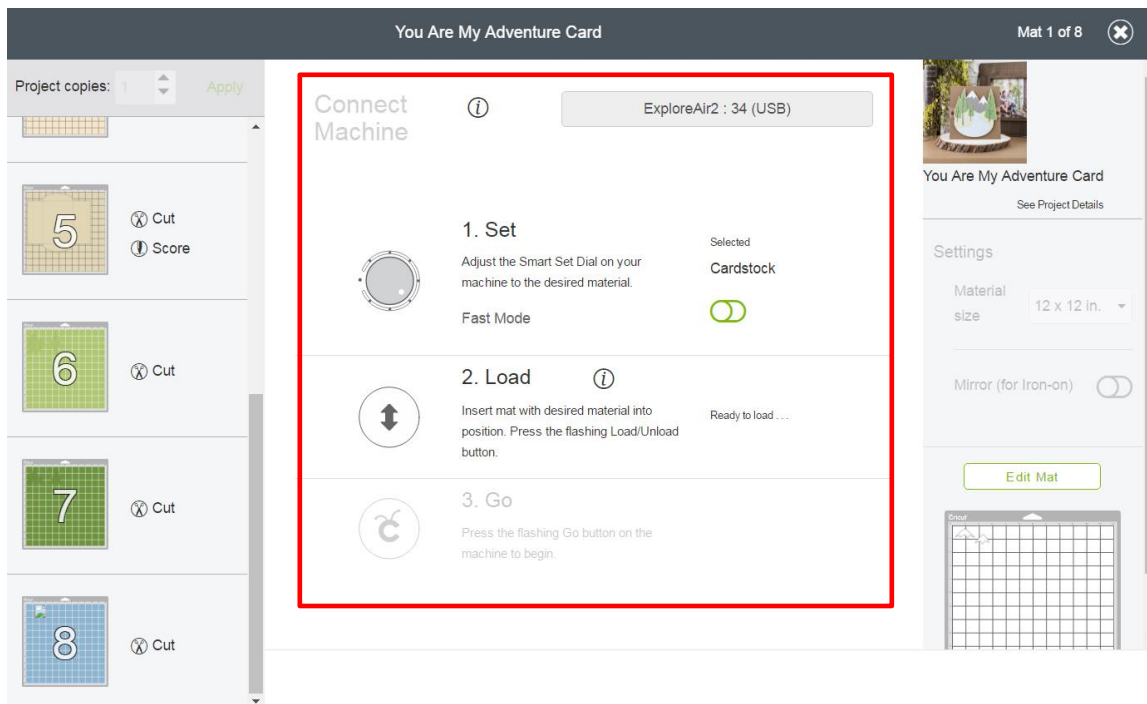

Step 4 The Mat Preview screen shows you how the project is laid out on the cutting mats.

Step 5 Click *Continue* to move to the next screen.

Step 6 Follow the onscreen prompts to set the Smart Set[®] dial, load the cutting mat, and press the Go button on your machine for each of the mats. You may be prompted to insert pens or scoring tools depending on the project.

Tip At any time, click See Project Details in the Details Panel on the right to view details and assembly instructions.
