

7. Inserting images from the Cricut® Image Library

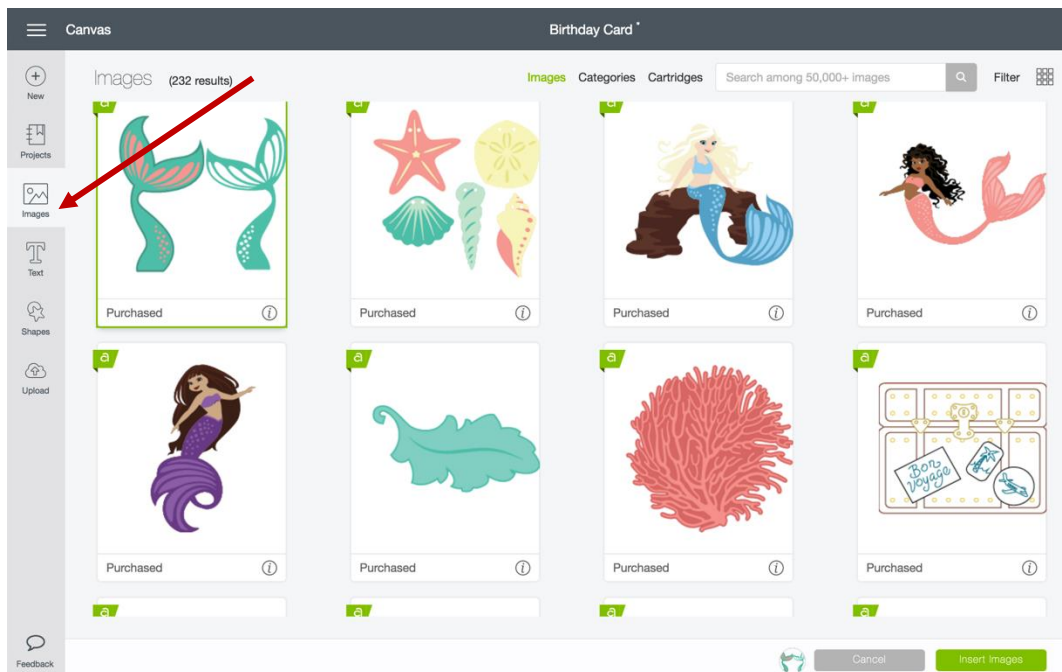

C. Searching for images

The Cricut Image Library includes over 50,000 images as well as your own uploaded images. Searching for a specific key word, phrase, or cartridge (image set) will help you narrow the image options so you can find the perfect image for your project.

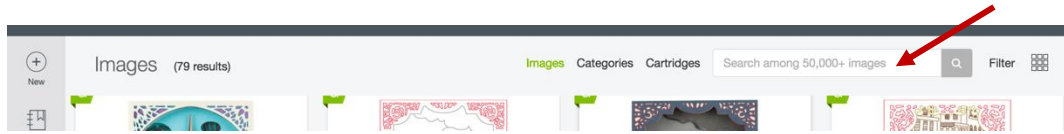

Step 1 Begin by clicking the Images Tab in the Design Panel on left of the Canvas to access the Image Library.

Step 2 A new window opens so you can view the Image Library. You will land on Images Tab, where you can begin your search.

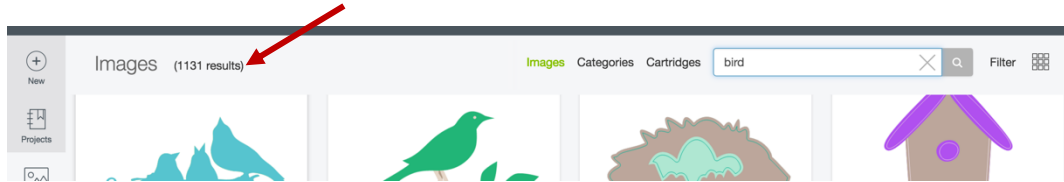

Images Tab -- View featured images or search for a specific image.

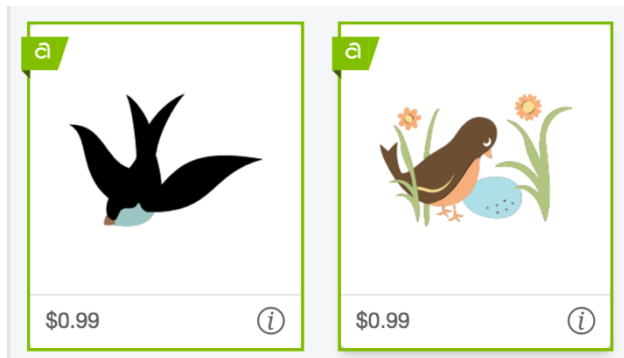

Step 3 Type a key word or phrase into the search field, and click the magnifying glass or hit the Return key on your computer.

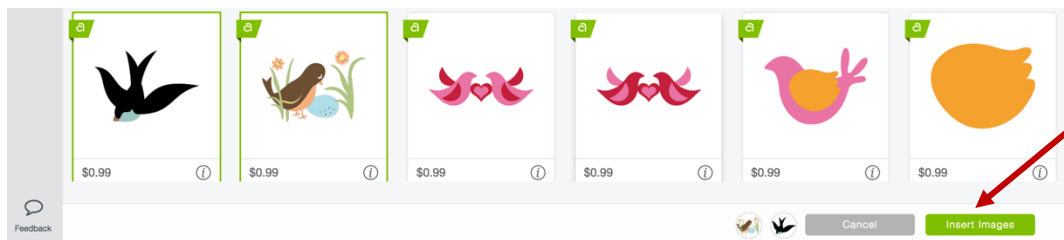

Tip: The image count near the Page Title indicates how many images were found with your inquiry.

Step 4 Click on an Image Tile to add it to your Image Tray, or continue to search for another image.

Step 5 Once images are selected, click the Insert Images button to add them to the Canvas.

Step 6 You can now move and size images to visualize how they'll look on your project.
