How Do I

Change a Scoring Wheel Tip?

The QuickSwap™ Housing makes changing tips as easy as pushing a button. When your Cricut Maker prompts you to insert Scoring Wheel or Double Scoring Wheel, push and hold the button at the top of the housing to snap on your desired tip. Then release the button, insert the tool into Clamp B, and you’re ready to score.

Let’s Start

1. Press and hold plunger on top of QuickSwap™ Housing to release tip.
2. Gently remove tip.
3. While pressing plunger, align flat areas inside new tip with flat sides of housing, then slide tip into place. Ensure tip is firmly seated against the housing.
4. Release plunger to secure tip in place.
