Q How Do I

Upload Patterns in Design Space?

Cricut Design Space gives you the ability to upload most .jpg, .bmp, .png, and .gif files for free, and converts them into pattern fills for your Print then Cut images.

🚽 Let's Start

- 1. Sign in to Design Space and click *Upload* in the design panel to the left of the canvas.
- 2. A window will open which prompts you to choose *Upload Image* or *Upload Pattern* upload. *Upload Pattern* allows you to work with file types including .jpg, .gif, .png, or .bmp. To begin, click *Upload Pattern*.

3. Drag and drop your file into the files area, or click *Browse* to locate the pattern you want to use from your computer. The file selector will open. Select the .jpg, .gif, .png, or .bmp file you want to upload. Then click *Open*.

5. You will return to the Upload screen with a blue alert indicating your pattern has uploaded successfully.

Note: Your uploaded patterns can be found in the Layer Attributes panel under Patterns. You can browse by using the tags you saved to the pattern, or by selecting "Uploaded" under the pattern filter. Note: At this time, patterns must be uploaded using Design Space on a desktop or laptop computer. Patterns cannot be uploaded or used in the Design Space iOS App, Design Space Android App, or in the Cricut Basics iOS App.
