

How Do I

Edit a Shared Project in Design Space?

The new Project Sharing feature in Design Space makes it easy for you to edit your shared project, so you can make it better over time.

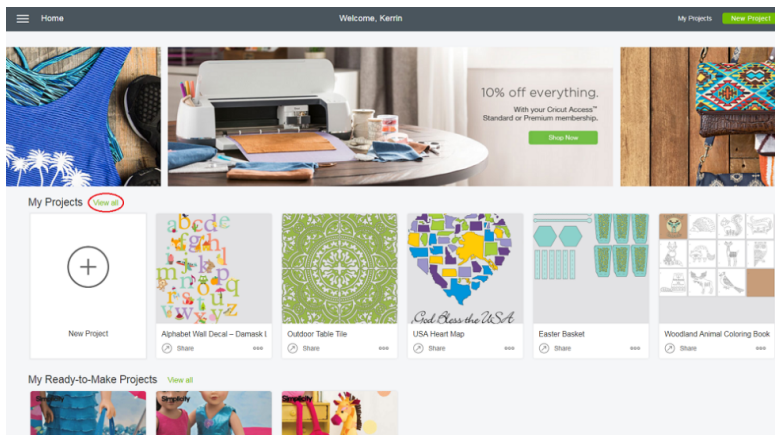

Note: This feature is not yet available in Android.

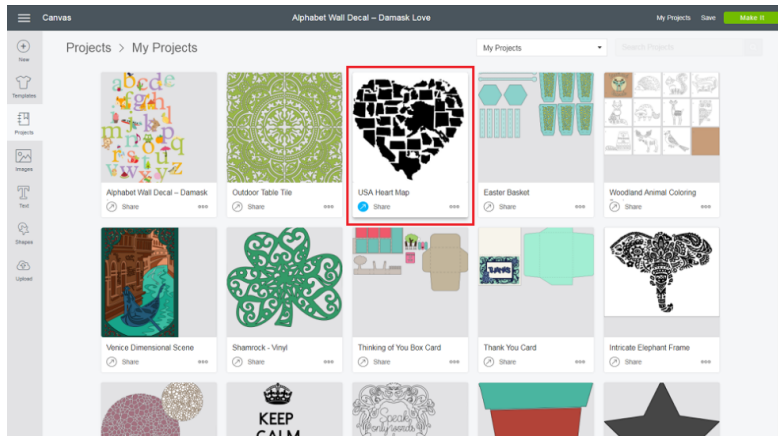

Let's Start

Windows/Mac

1. To edit a project detail in Design Space, go to design.cricut.com and sign in with your Cricut ID and password.
2. Once logged in, click on the **View all** link above the My Projects ribbon.

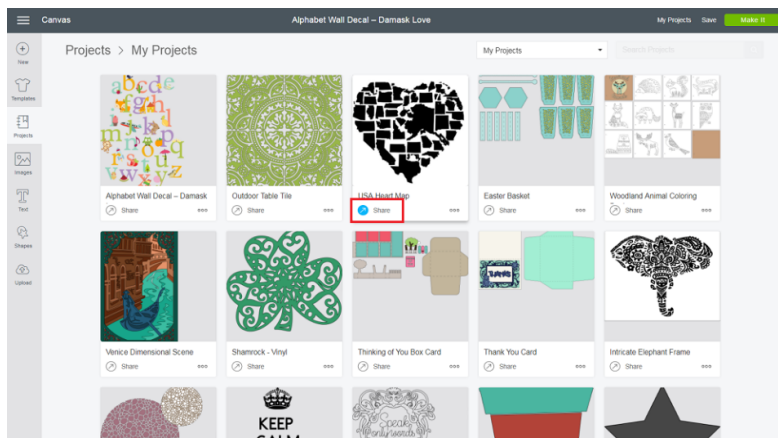

3. Scroll through your personal list of projects until you find one you've already shared that you'd like to improve.

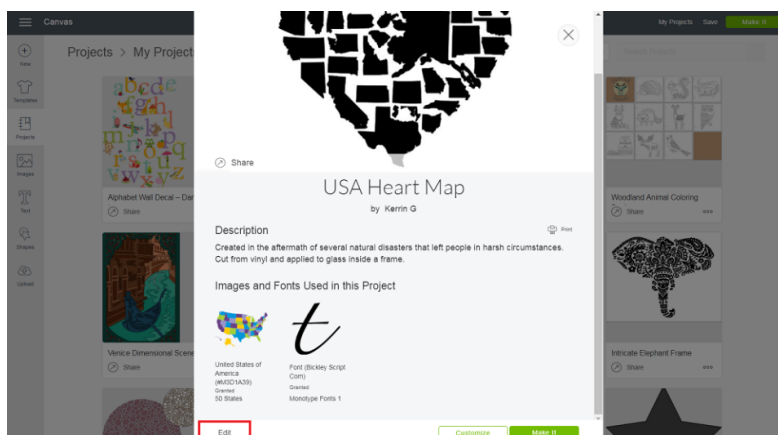

4. There are three ways to edit your project from the My Projects page in Design Space.

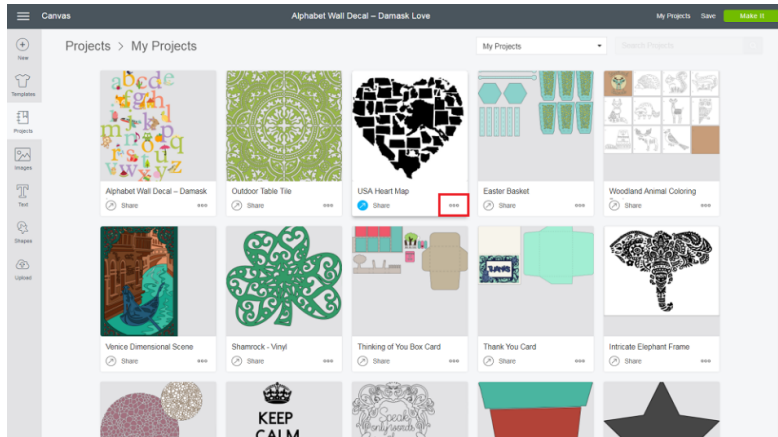

- Clicking on the **Share** link at the bottom of the tile will open the project in edit mode.

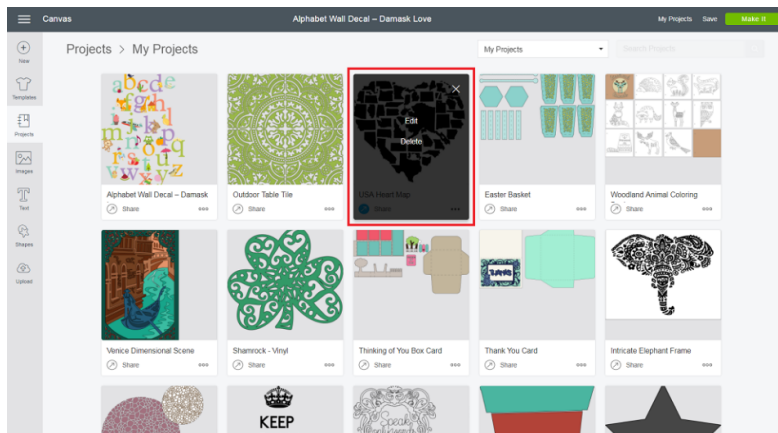

- Clicking on the canvas portion of the tile will open the project in preview mode. Click the **Edit** link in the lower left-hand corner to open the project in edit mode.

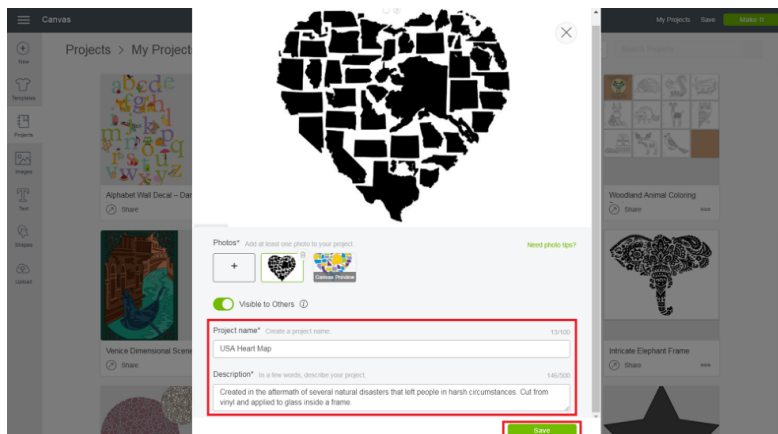

- Clicking on the three dots in the bottom right-hand corner of the tile will display additional project options.

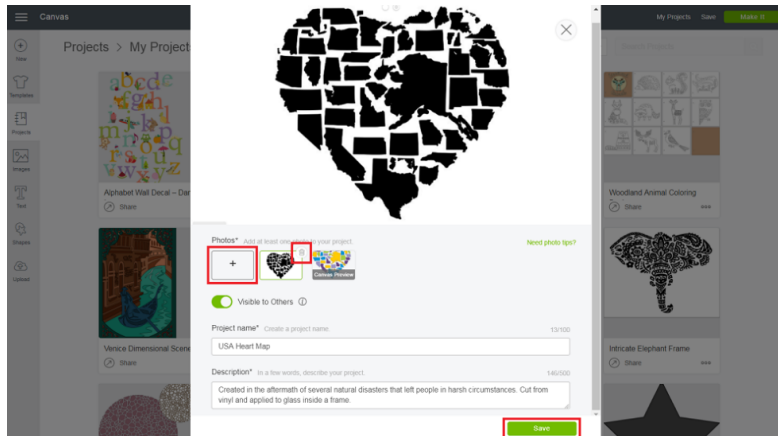

- Click the **Edit** link in the overlay to open the project in edit mode.

- To make changes to project text, simply edit the text and click the **Save** button.

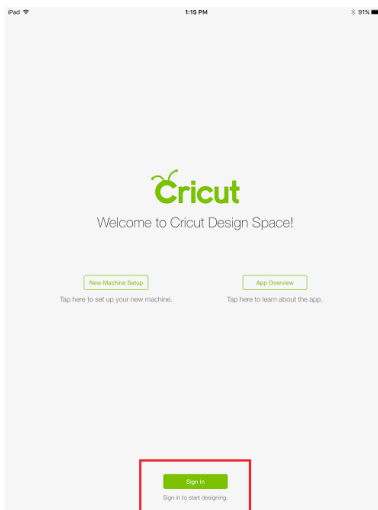

6. To delete an existing photo, click on the trash can icon to delete. Click on the plus button under the Photos header. Select a new photo from your desktop. Click the **Save** button.

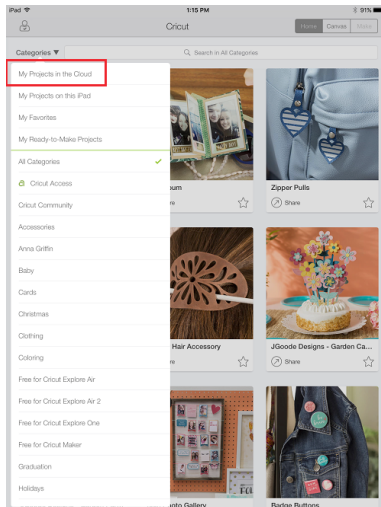

Note: For optimal results, ensure that the photo is already in horizontal or landscape orientation.

iOS

1. To edit a project detail in Cricut Design Space, launch the app and sign in with your Cricut ID and password.

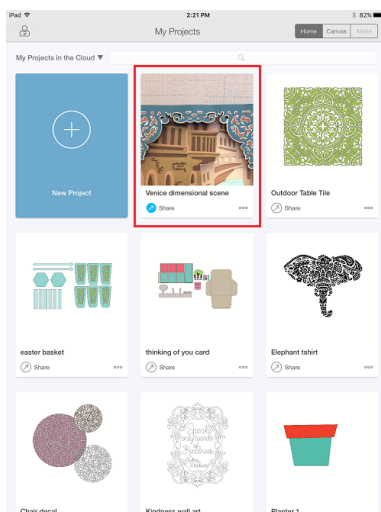

2. Once logged in, select **My Projects in the Cloud** from the Categories menu.

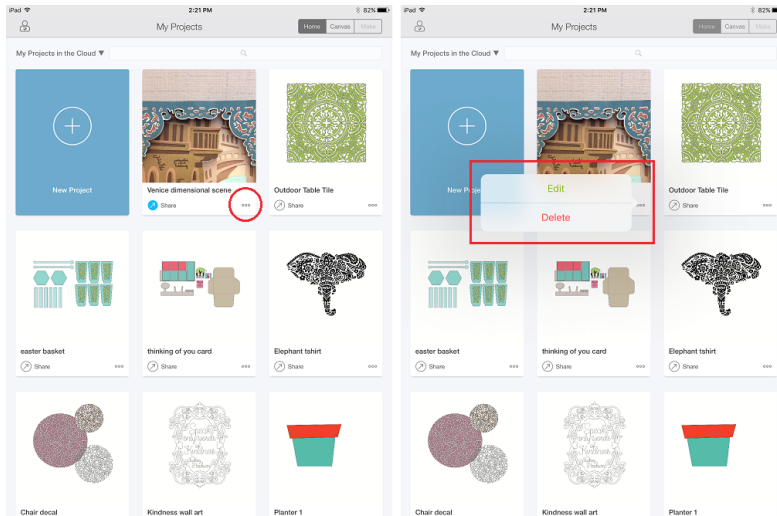

Note: Any project that is saved to the iPad or iPhone will need to be saved in the Cloud before you can share it or edit it.

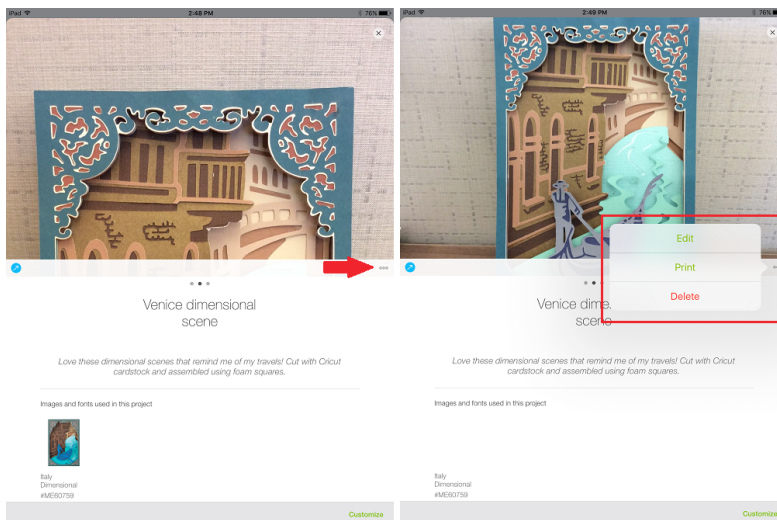

3. Scroll through your personal list of projects until you find one you've already shared that you'd like to improve.

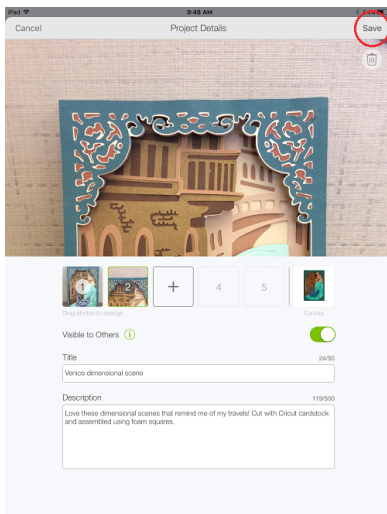

4. There are two ways to edit your project from the **My Projects** page in Design Space.
 - Clicking on the Action menu (three dots) in the bottom right corner of the project tile. Tap **Edit** to open the project in Edit mode.

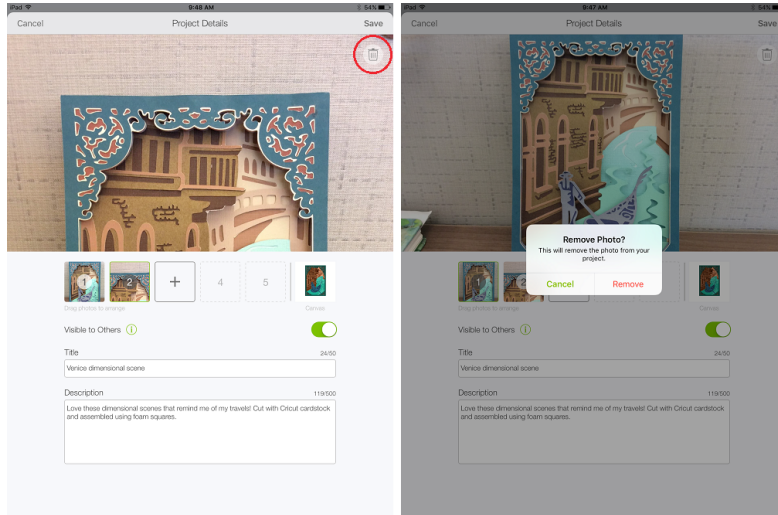

- On the Project Details screen, tap the Action menu (three dots) on the right, under the project photos. Tap **Edit** to open the project in Edit mode.

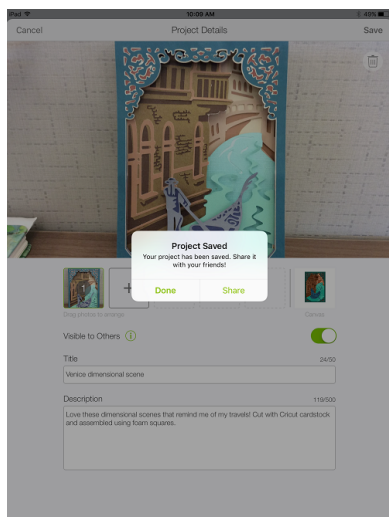

5. To make changes to project text, simply edit the text and tap the **Save** button.

- To delete an existing photo, tap on the photo then click on the trash can icon, or tap and hold on the photo to receive a prompt asking if you would like to remove the photo. Click **Remove** to delete the photo from the project. Tap on the plus button under the photos header to add a new photo.

- When you tap **Save**, you will receive a prompt to share your project with your friends. Tap **Share** to share the project on Facebook or **Done** to return to My Projects.

Note: For optimal results, ensure that the photo is already in horizontal or landscape orientation.
