Cricut Explore Series FAQ

Software Download for Explore machines

Go to design.cricut.com on your desktop or laptop computer and sign in with your Cricut ID. You will be prompted to download the Cricut Design Space plugin and guided through the installation process.

If you are using iOS or Android mobile device, search 'Cricut Design Space' in the App Store (iOS) or Google Play (Android) and download the Cricut Design Space app. Then just sign in with your Cricut ID and design away!

Do I need the Wireless Bluetooth Adapter for my Explore machine?

The Explore Air and Explore Air 2 have built-in Bluetooth, but for Explore One and Explore, you will need a *__Cricut Wireless Bluetooth Adapter.__*

What are the differences between the different Cricut Explore machines?

The Explore, Explore Air, and Explore Air 2 have a double tool holder so that you can cut & write (or cut & score) in 1 step. The Explore One has a single tool holder, so it can cut & write (or cut & score) in 2 steps.

The Explore Air and Explore Air 2 have built-in Bluetooth, but for Explore One and Explore, you will need a Cricut Wireless Bluetooth Adapter in order to use it with your iOS or Android mobile device or to cut wirelessly from your computer.

Click *here* for more information.

What are the dimensions and weight of the Explore, Explore Air, Explore Air 2, and Explore One?

The dimensions and weight are as follows (for all Explore Series machines):

- Height: 151.59mm (5.97")
- Length: 563.3mm (22.17")
- Width: 177.57mm (6.99")
- Weight: approximately 21 lbs (9.5 kg)

Can I write or score with my Explore One machine?

Yes. You will need to purchase the ***Explore One Accessory Adapter***, then simply switch it with the blade housing for your writing or scoring projects.

Does my Explore series machine come with a carry bag?

The Explore series machines do not come with a carry bag. However, you can purchase a carry bag or machine tote separately.
